

Accelerating Smart and Shared Zero Emission Mobility

Co-funded by
the European Union

PART OF THE

EU MISSIONS

CLIMATE-NEUTRAL & SMART CITIES

The **metaCCAZE** project, funded by the European Union, aims to revolutionise mobility in European cities, serving both passengers and freight, with innovative electric, automated, and connected solutions designed to make transportation smarter, net zero, and more efficient for all.

44 Partners

from 12 European countries

4 Years

January 2024 – December 2027

24.7

Million € EU Co-Funding

In the vibrant streets of four **Trailblazer cities** metaCCAZE tests and demonstrates cutting-edge technologies that support **shared zero emission mobility solutions** for people and goods, contributing to climate neutrality. Successful technologies and activities will be shared and implemented to six **Follower cities**.
